Note to Parents or Guardians:

We thank you for your willingness to allow your teenager to be involved in this program. The Technician/Engineer Program is a vital part of Camp Barakel. These guys and gals will work in areas that are very important to the day-to-day operations of Camp. Although the jobs will not be "glamorous", they will be contributing to this mission ministry by doing tasks that must be done in order to function. It is our desire to not only receive help from them, but to also give something in return. We will attempt to make their work time enjoyable and as safe as possible, and also provide "free time" and group recreational periods as well. We will also provide daily chapel and devotional times in an attempt to give them Biblical instruction that will lead them to a strong relationship with Jesus Christ.
